REQUIRED PREREQUISITE ONLINE TRAINING

All attendees need to complete the required prerequisite training, **Enphase Storage Installer Certification**, before registering for the hands-on training. Prerequisite training is online at Enphase University.

Once they have completed the online storage installation training prerequisite, they will be able to sign up for one of the sessions listed above at:
<https://university.enphaseenergy.com/mod/facetoface/view.php?f=5>

The seats and availability of these sessions are limited, so Enphase does ask for at least 72 hour cancellation notice, and there is a no-show fee of \$350 per person for any no shows or late cancellations.

To sign in to Enphase University, attendees need to be set up under their company's account in Enlighten, then use their Enlighten login to sign in to Enphase University.

If an installer doesn't have an account in Enlighten, this link: <https://support.enphase.com/s/article/How-do-I-add-a-new-Enlighten-user> explains how one of their company's Enlighten administrators can add new users.

Enphase requires that each installer have their own unique email address, since the certifications earned are attached to the email address used during registration. No shared email addresses, like solar@, leadinstaller@, companyname@, etc. It needs to be unique, like minnie@, m.mouse@, etc.)

Contact Espie at (916) 679-4028 or espie@cfmequip.com if you have any questions
